A place to fulfill your dreams!

留学生を「就職」へと導く、新しい日本語学校。

A new kind of Japanese-language school helping foreign students find a job

国際化の激しい波の中で、日本企業も今、優秀な「グローバル人材」＝外国人留学生を求めています。日本企業が外国人を雇う時、採用基準として重視するのはやはり日本語能力です。しかし、それだけでよいのでしょうか？

ダイキ日本語学院東京では、正しい日本語を教えるのは当然ですが、それ以上に「異文化トレーニング」が重要と考えています。日本企業で働く際に、ちょっとした日本語の間違いや文化的背景の違いから「異文化衝突」が起こり、大きな問題を招くこともあります。それが進学・就職の際の障害とならぬよう、社会科見学や文化体験授業など、様々なイベントを取り入れ、将来的に日本社会から歓迎される人材に育成したいと考えています。バランスの取れた教育カリキュラムで、あなたが希望する進学・就職への近道を作り出します。

Amid today's sweeping tide of internationalization, many Japanese companies are now looking for excellent foreign students, who are future global human resources. Japanese language proficiency is the most important factor for Japanese companies to consider when hiring a foreigner. However, is that enough?

Correct Japanese language education is important, as a matter of course, but we, DAIKI Japanese Language School Tokyo, believe that intercultural communication training is even more important than that. If a foreigner is working at a Japanese company, he/she can encounter unexpected culture clashes due to minor mistakes in Japanese language or differences in cultural backgrounds, which may become a major problem. In order not to create such culture clashes that could bring about obstacles to higher education or employment of our students and to cultivate human resources to be welcomed by Japanese society in the future, our curriculum has included various events such as social studies field trips and Japanese culture experience lessons. Our well-balanced educational curriculum will offer a shortcut to your desired higher education and employment.

教えて!ダイキ生!

Let us know, DAIKI students!

先生の話が分かるようになるのが嬉しいです!
I'm glad when I start to understand what the instructors are talking about!

現役ダイキ生に学校での様子や日本での生活のいろいろを聞いてみました!!

We asked the current DAIKI students about the school and their actual life in Japan!!

Q.日本語の授業はどのような感じですか? How is the Japanese language class?

A. 先生が日本語しか話さないで大変です。でも、毎日聞いていると、だんだん先生が言っていることが分かるようになるので嬉しいです。特に好きなのは文法の授業です。文法を覚えて使えたら、日本の生活が楽になりますから。私はカトマンスで3か月日本語を勉強しましたが、もっと長く勉強してから留学したらよかったですと思うので、留学生には、来日する前にたくさん勉強することをオススメしたいです。

It is tough because all the lessons are conducted in Japanese in principle. But as I take a lesson every day, I begin to understand what the instructors are saying. It's nice when that happens. I especially like grammar lessons as mastering the grammar would make my life in Japan easier. I studied Japanese language in Kathmandu for 3 months, but I should have studied more there. So those wanting to study in Japan should study Japanese language as much as possible before coming to Japan.

Q.東京の生活はどのような感じですか? How is your life in Tokyo?

A. 東京は本当にきれいな町で、気に入っています。私の故郷よりずっとキレイです。また、カトマンスには電車がありませんが、東京では毎日電車を使います。東京の電車はとても速くて、本当に便利です。

I like Tokyo, which is a really nice city and much neater than my home town. Also, there is no train service in Kathmandu, but I've been taking the train every day since I came to Tokyo. It's very fast and convenient.

Q.日本語の授業はどのような感じですか? How is the Japanese language lesson?

A. 難しいですが、楽しいです。特に、新聞や雑誌を読む「読解」が好きです。記事を読むと、知らなかった文化を知ることができ、日本語だけでなく社会の勉強にもなります。学校ではテストがたくさんあり、合格しなかったら必ず追試をします。合格するまで何回もしますが、何回もすれば絶対に日本語を覚えられますから、追試はとてもいい制度だと思います。アルバイトも大切ですが、勉強が一番大切なので、これから入学する留学生にも勉強がんばってほしいです。

It's hard, but fun. I especially like "reading" lesson where we read Japanese newspapers and magazines. Reading articles is a great way to learn about Japanese society as well as Japanese language because it allows me to learn Japanese culture I didn't know before. We have a lot of tests and failure to pass them makes me take make-up tests. Unless I pass the make-up test, I will have to take it again and again. However, this system, I think, is very effective because taking the make-up tests repeatedly allows you to learn Japanese language surely. It is all very well to do a part-time job, but the most important thing for us is to study Japanese language. I hope the foreign students who are going to enter this school will study diligently.

Q.アルバイトについて教えてください。 Let me know about the part-time job you're doing now.

A. マクドナルドで働いています。ハンバーガーを作ったり、レジの対応をしたりしています。時給1100円。週に4日、1日7時間です。店長はとても優しく働かやすいです。

At McDonald's I make burgers and work as a cashier. I work 4 days a week, 7 hours a day for 1100 yen an hour. The manager is very nice and easy to work with.

日本文化や社会の勉強が楽しいです。
I'm enjoying learning about Japanese culture and society.

Jayasuriya Gayal Dinuka

ダイキエンジニアリングは、自動車・航空機・船舶など幅広い分野で活躍している技術者がたくさんいるので、いろいろな業務に挑戦したい方やどのような業務をしたいか悩んでいる方にもおすすめの企業です。また、仕事だけではなく、桜の時期のお花見や年の終わりの忘年会、各チームでの懇親会やスポーツ大会など、日本の文化やイベントにも参加できるのが嬉しいです。

DAIKI Engineering has many engineers who are active in a wide range of fields such as the automotive, aircraft, and ship industries, so I would like to recommend it to those who would like to try their hand at various tasks and who are wondering what kind of work to do. In addition to work, another appealing aspect of DAIKI Engineering is that I can participate in various events such as end-of-year parties, team get-togethers, sporting events, and cherry blossom viewing allowing me to experience Japanese culture.

希望の大学へ進学! I got into the university of my choice!

外国人留学生の大学受験は、書類選考、筆記試験、面接試験と大学によって様々です。中国の受験制度とはまったく違うので、合格できたのは大学探しから面接試験まで先生が親身になって指導してくれたおかげです。また、プレゼン授業や体験授業は、面接試験の自己PRに大変役立ちました。大学ではマーケティングを勉強して、将来は自分のビジネスを立ち上げたいです。

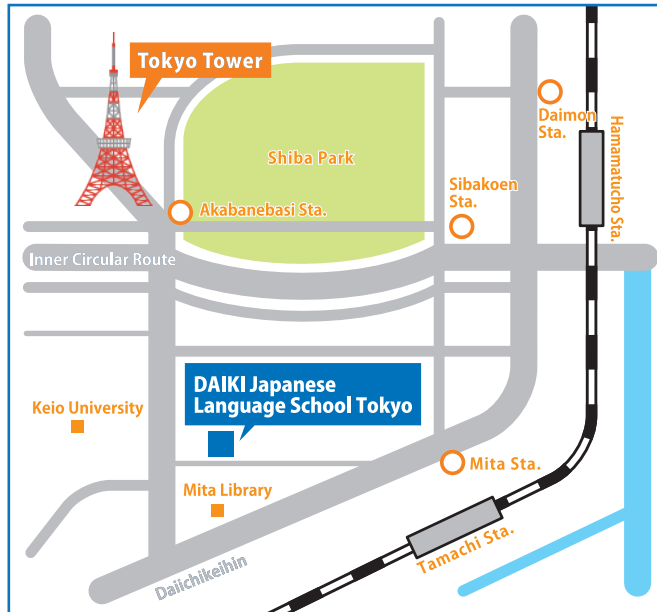

When foreign students take an entrance examination at a Japanese university, the examination methods (including document screening, written exam, and interview exam) varies depending on the university. The examination system in Japan and China is completely different, so thanks to the support and guidance of my instructors, from searching for a school to preparing for the interview exam, I was able to pass the entrance examinations. Also, the presentation classes and hands-on classes were very helpful in promoting myself in the interviews. I want to study marketing at the university to start my own business in the future.
